Personal Projects

1) **CV-Auction System (Commercial Vehicle Auction)**
   (12/2024 - 02/2025)
   - Developed a Commercial Vehicle Auction System using React (SPA), React Icons, and Bootstrap 5 for a responsive UI.
   - Used Axios for frontend-backend communication and routing.
   - Built the backend with C# and .NET Framework, implementing RESTful Web Services.
   - Utilized Entity Framework (database-first) for seamless database integration.

2) **Portfolio Website**
   (12/2021 – 02/2022)
   - Developed using the React library
   - Styled with the Tailwind CSS framework
   - Contains comprehensive professional information about me
   - https://pratikbharambe.me/

3) **Audiobook Management System**
   (09-2024)
   - Audiobook CRUD Operations: Create, Read, Update, and Delete audiobooks.
   - Backend: ASP.NET Core
   - Frontend: HTML, CSS, JavaScript (Bootstrap for styling)
   - Database: SQL Server

4) **Student Management System**
   (07-2024)
   - Developed using Java, Spring Boot (backend), and Thymleaf (frontend).
   - Supports CRUD operations for student records: insert, update, delete.

Certificates

1) **Python (Basics to Advanced)**
   (12/2022 - 02/2023)
   - Learning with direct problem solving and logic building.
   - EDA Projects on Zomato and Car Dekho datasets for data visualization using various methods like graphs. Heatmap, pie charts, etc

2) **TCS ION Career Edge - Young Professional**
   (10/2021 - 11/2021)
   - This course is offered by TCS ION experts on soft skills required for
   - communication in the industry.
